Executive Summary: Cybersecurity & GRC Operations Leader

Multifaceted cybersecurity professional with hands-on expertise in governance, risk, and compliance (GRC), threat triage, and client advisory across regulated industries. Proven ability to assess, remediate, and elevate cyber maturity through both technical investigation and strategic consulting. Demonstrated leadership in expanding service offerings, mentoring junior analysts, and driving operational excellence in fast-paced environments.

Key Highlights:

- **GRC & Compliance Leadership:** Led client-facing cyber operations assessments, validating compliance or identifying gaps across NIST, ISO 27001, PCI DSS, and HIPAA frameworks. Delivered tailored gap analysis, remediation guidance, and compliance roadmaps, strengthening client posture and audit readiness.
- **Strategic Growth & Enablement:** Designed and executed sales and marketing initiatives to expand GRC services and client base, aligning technical capabilities with business development goals.
- **Threat Detection & Incident Response:** As a Triage Security Engineer at Arctic Wolf, conducted deep-dive investigations into AD lockouts and secondary indicators of compromise (IoCs), while maintaining frontline triage responsibilities. Authored and refined runbooks to institutionalize best practices and accelerate response times.
- **Training & Continuous Learning:** Mentored new analysts and interns on Arctic Wolf's triage workflows and threat detection protocols. Invested over 7 hours weekly in Immersive Labs training, demonstrating commitment to skill advancement while balancing full-time responsibilities.

CERTIFICATIONS ([Credly](#))

HITRUST:

- CCSFP (Certified CSF Practitioner)

CompTIA:

- Network+
- Security+
- Linux+
- CySA+
- PenTest+
- CASP+ (now SecurityX)

PROFESSIONAL EXPERIENCE

InfoSec Specialists | Orem, UT

September 2025 - Present

Co-Founder

- Started a cybersecurity consulting company as a side project to continue using my GRC knowledge
- Led all business, sales, marketing, and compliance consulting service functions of the business
- Specialized in building/implementing policies/procedures for small businesses to meet NIST, HITRUST, and PCI DSS requirements

Digital Forge | Lehi, UT

March 2025 - September 2025

GRC and Cyber Operations Manager

- Lead assessor for our clients' cyber operations where I either confirmed compliance or taught about gaps in compliance
- If not assessing client, consulted with client to be compliant with frameworks such as NIST, ISO, PCI DSS, and HIPAA
- Created and led sales and marketing plans for expanding our GRC services and client base before the company ceased operations

Arctic Wolf | Pleasant Grove, UT

April 2024 - March 2025

Triage Security Analyst / Triage Security Engineer - 1

- Triage customer requests and alerts to determine if alerting or further incident investigation was needed

- Performed some deeper investigations like finding sources of AD lockouts or secondary IoCs
- Compared client's cybersecurity configurations to determine if recommended solutions and practices were in place
- Created and amended runbooks to help Arctic Wolf expand knowledge and best practices for everyone involved
- Helped train new Triage Security Analysts and Interns on job responsibilities and Arctic Wolf processes
- Finished an average of 7.3 hours of training each week on Immersive Labs on my personal time while working full time

Digital Forge | Lehi, UT

February 2023 - April 2024

Compliance Analyst Assistant

- Collected client's cybersecurity policies, procedures, and implemented controls via documentation review and interviews
- Compared client's current cybersecurity practices to security frameworks such as NIST, ISO, PCI DSS, and HIPAA
- Identified gaps between current procedures and compliance requirements to determine if current controls are sufficient

Small Business Owner | Orem, UT

November 2017 - February 2023

Founder / Owner

- Founded company specializing in exterminating pests along the Wasatch Front in Utah
- Managed all marketing, sales, bookkeeping, employees, and extermination activities of the company
- Led the company to becoming profitable after two months of opening operations (closed company due to COVID)

EDUCATION

Western Governors University | Salt Lake City, UT

Graduated January 2024

- Master of Science in Cybersecurity and Information Assurance

Devmountain | Cybersecurity Bootcamp | Lehi, UT

Graduated January 2023

- Capstone Project - [Github Repo](#) | [Demo](#) | Javascript | NodeJS | PostgreSQL | Express | Axios | Bcrypt | CSS | HTML5
- Created functional sample small business pest control website with full user registration/login functionality
- Implemented basic security functionality including password hashing, input sanitization, and HTTP cookies

Dixie State University (now Utah Tech University) | Saint George, UT

Graduated December 2009

- Bachelor of Science in Biology

ADDITIONAL INFORMATION

Awards: 2003 Computer Technology Sterling Scholar for the Southern region in Utah

Community Service: Two years non-profit community service in Sao Paulo, Brazil (working knowledge of Portuguese)

Programming Experience: Javascript | NodeJS | PostgreSQL | Express | Axios | Bcrypt | CSS | HTML5 | Github

Security Tool Experience: BurpSuite | Greenbone | Kibana | Nessus | Nmap | Splunk | Wireshark
